**PROJECT TYPE:** STANDARD BOUNDARY SURVEY

**CLIENT:** PETER POIDOMANI

**PROJECT NAME:** CAMP LOT ON SEBAGO LAKE

**LOCATION:** SEBAGO, MAINE

**DESCRIPTION:** Main-Land completed a boundary survey of a small camp lot, approximately 0.5 acres, on Sebago Lake in Sebago. The project involved researching deeds, field location of boundary evidence, and preparation of a survey plan. The purpose of the project was to determine the southerly boundary line and “re-set” the missing southeasterly corner with a 5/8 inch rebar with surveyor’s cap.

**CLIENT QUOTE:** *My wife and I were very impressed with how our questions and concerns were addressed by Main-Land. Their work was completed in a timely professional manner.*

*- Peter Poidomani*
