PROJECT TYPE: BOUNDARY SURVEY

CLIENT: WILLIAM SYLVESTER &
PENLEY CORNER CHURCH & CEMETERY

PROJECT NAME: LAND OF SYLVESTER &
PENLEY CORNER CHURCH & CEMETERY

LOCATION: AUBURN, MAINE

DESCRIPTION: Main-Land completed a standard boundary survey of a parcel of land, approximately three acres, on Riverside Drive in Auburn. The project involved researching deeds, field location of boundary evidence, and the preparation of a survey plan. The purpose of the project was to determine boundary lines and create a survey plan.

“My experience with Main-Land has been excellent. My property survey was promptly completed to my satisfaction. Additionally, a long standing boundary issue is being resolved on an adjoining cemetery lot created in 1833.”

-William Sylvester
