PROJECT TYPE: TOPOGRAPHIC SURVEY

CLIENT: TD ARCHITECT

PROJECT NAME: THOMAS & ELIZABETH  
SHEPHERD PROPERTY

LOCATION: BETHEL, MAINE

**DESCRIPTION:** Main-Land completed a partial topographic site survey of Lot 21 of Locke Summit Estates, located on Picnic Rock Road in Bethel. The project involved completing vertical and horizontal location to provide 1 foot contour mapping and the location of site features, such as pavement, gravel, utilities and tree lines. This data was compiled into an existing conditions survey plan, which was forwarded to TD Architect, for use as a “base map” for planning and design purposes.

*“Main-Land Development Consultants provided us with exactly what we needed for our custom home design project. Services were delivered in a timely and professional manner. Communication was clear and courteous. The staff was a pleasure to work with and I look forward to collaborating with Main-Land on future projects.”*

*– M. Ted Dickerson, AIA*
